Forecast for Monday 26 Jul 2021

Weather: Low cloud to start the day across northern ranges, this burning off through the morning. Then some spells of warm sunshine, this setting a few slow moving showers in the afternoon and evening with an isolated thunderstorm possible. Some ranges will remain dry.

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Poor in early low cloud below 300 metres in the north of the region at first. Otherwise generally good with cloud mostly above the highest summits, although lowering to 900 metres in heavy showers or thunderstorms

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Another warm day so be prepared for sunburn and dehydration. Risk of drenching downpours in the afternoon and evening.

Forecast for Tuesday 27 Jul 2021
Weather: Low confidence for detail. A lot of cloud expected through the day with scattered downpours and isolated thunderstorms breaking out by the afternoon. Chance of some brightness in the southwest.

Maximum wind: Westerly 10 mph

Chance of cloud free mountain/hill tops above 800m: 40%

Visibility: Poor in low cloud down to 400 metres, this may be extensive in the north and east of the region. Best chance of breaks will be across the southwest.

Temperature: **Glens:** Plus 12 rising to 20 Celsius
At 800m: Plus 13 Celsius
Freezing level: Above summits
